*With countless applications
allow us to be your eyes both in
the sky and underwater...*

AERIAL:

Our state-of-the-art Phantom 2 Vision Plus "Drone" (UAV Unmanned Aerial Vehicle) has amazing capabilities offering impressive HD aerial photography and video from the sky. This cost effective method avoids having to use expensive alternatives such as helicopters and airplanes. Our highly skilled CAA UAV Pilots will work closely with you to achieve your objectives.

- * Range: 1,200 metres (can be significantly increased)
- * Altitude: 133 metres (much more with CAA approval)
- * Flight time: Up to 25 minutes per battery (we carry 3 re-chargeable batteries)
- * Pilots licenses by CAA (RPQ-s Qualified)
- * Comprehensive PL Insured
- * Our pilots can be mobilized to anywhere in the world
- * All media saved to your memory stick
- * Video editing service available on request
- * Rapid deployment - all equipment in one storage box

CLIENTS:

- * Commercial/Domestic Estate Agents
- * Utility Companies
- * Local Authorities
- * Transport Departments
- * Water Authorities
- * Film & TV Production Companies
- * Events, Concerts, Festival
- * Oil & Gas (On/Offshore)
- * Sporting Events
- * Police, Fire & Rescue Services
- * Regional Tourism Departments
- * Security Control

- * Marketing/Advertising Companies
- * Historical Organisations
- * Marine Industry
- * Agriculture & Forestry
- * Wildlife Organisations
- * Disaster Area Surveys
- * Insurance Companies
- * Theme Parks, Zoo's etc.
- * Wedding Planners
- * Hotels, Schools, Universities

HIRE RATES: UAV with Pilot

Domestic/Commercial Property Survey: From £149.00
 Estate Agents: From £125.00
 Half Day Rate: (1 up to 4 hours on site): £295.00
 Full Day Rate: (4 up to 8 hours on site): £495.00
 Night Flights: £POA - Editing: From £35.00 per hour

Battery life restricts fly time - in calm conditions and slow flying speeds our batteries last for up to 25 minutes but high wind speeds and fast flying speeds will drain the battery quickly and thereby reduce the battery life/flying time - we do carry spare batteries for our half and full day contracts, plus battery re-charge turnaround is approx. 30 minutes per battery.

"Phantom" Drone

"We used the ROV for inspecting our public swimming pool and were very impressed with the whole service and results..." (Chris S. B LLC, Leicester, UK)

"We are now inviting our vendors to use the drone aerial photography service as an added sales tool in selling their high value properties..." (Sean R. Executive Estates, Coventry, UK)

"I used the ROV for inspecting below the water line before purchasing my Beneteau S Trawler 52' saving me lifting the boat out of the water, it was excellent value for money..." (Jonathon B. Torquay, Devon, UK)

UNDERWATER:

Our Mini-ROV (Remotely Operated Vehicle) is capable of performing underwater surveys and inspections.

Opting for a mini-ROV is a very sensible alternative to contracting full dive teams. Our mini-ROV can access confined spaces that divers are too large to enter and in a variety of liquids, highly portable, swift deployment and extremely versatile...

- * Maximum operational depth: 50 metres
- * Colour camera: PAL CCD 520 TV Lines, 0.3 lux, + 50 degrees angle tilt
- * 3 magnetically coupled thrusters
- * Horizontal speed: 2 knots
- * Ultra-thin 4mm flexible Kevlar umbilical cable
- * Lighting: two clusters of ultra-bright LED's
- * Depth sensor, auto-depth mode
- * Compass and auto-guide mode
- * Data display
- * Power supply 100-240VAC
- * Total power consumption: 100 Watt
- * ROV weight: 1.5KG
- * ROV dimensions: 210 x 185 x 150mm
- * Comprehensive PL Insured
